

# Tulpi-Bin

# Tulpi<sup>®</sup>-Bin

This new addition to the Tulpi product line stands out through its bright colours and innovative design. With its cheerful and eye-catching appearance Tulpi<sup>®</sup>-Bin creates an atmosphere that will encourage people to actually have fun throwing away their garbage. Disposing of waste will no longer be seen as 'dull'. This way the Tulpi<sup>®</sup>-Bin contributes to a clean and beautiful world.

The Tulpi<sup>®</sup>-Bin is constructed from a solid round steel post with a welded container tray. A ring for garbage bag or a separate inner tray provides a large capacity for waste. The whole is enclosed by three curved composite petals. The whole is enclosed by three curved composite petals.
